

## **CRISTINA J. M. GONÇALVES**

Statistician, Office for Population Studies of the Department of Census and Population Statistics of the Portuguese National Statistics Institute (INE).

Cristina Gonçalves has a degree in Social Service, obtained in September 1997 at Lisbon's Social Service Institute, with a focus on social policies and poverty and measures to combat social exclusion. Her main research interests are demographic ageing and older persons and specific population groups that are vulnerable to poverty and social exclusion.

Her current projects include a Brochure about Demographic Ageing and the recent situation of older people in Portugal—to be presented at the Second World Assembly on Ageing (United Nations), Madrid, 8-12 April 2002; exclusion, poverty and social inequality in Portugal in the nineteen's; Poverty indicators on some specific population groups more vulnerable to situations of poverty and social exclusion (such as older persons); Analysis on Population Census 2001 data, focused on specific population groups; and Attendance of the Project *Gender and Generations Survey* of UN/ECE.
